## **Brake Calipers EV 038 EFM and EH 038 EFM**

### electromagnetically activated - spring released

**Features** 

Code

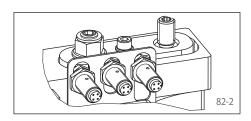

#### **Advantages**

The brake caliper EV 038 EFM or EH 038 EFM is a very compact and high efficient disc brake with very low power consumption. Its floating bearing compensates small misallignments of the brake disc. The attached electronic reduces automatically the power consumption in closed position to 30 W.

#### **Options**

 Inductive proximity switch: "Brake released"-, "Brake closed"-status and/or "Friction block wear adjustment necessary"
